Badminton, Circket.

## Languages

English  
Tamil  
Urdu

## Professional Summary

I'm a second-year B.Sc Computer Science student at VIT with a passion for technology and real-world problem-solving. Skilled in C++, Python, Java, and full-stack development using HTML, CSS, JavaScript, and Node.js. I enjoy building applications, exploring DSA, OOP, and learning AI/data science fundamentals. A quick learner and team player, I'm actively seeking internships to gain industry experience, contribute meaningfully, and grow as a developer. Let's connect and build something impactful together!

## Employment History

### Student Developer , Independent Projects, Vellore Institute of Technology (VIT)

07/2023 - Present  
Developed web applications using HTML, CSS, JavaScript, and Node.js as part of full-stack learning.

Built projects applying C++, Python, and Java for data structures, algorithms, and OOP principles.

Gained hands-on experience with MySQL, Git, and version control for real-world project management.

Explored AI and data science fundamentals through coursework and online challenges.

Strong focus on teamwork, fast learning, and applying technical skills to practical problems.
